

BoatU.S.® Distinguished Civic Service Award

The BoatU.S. Distinguished Civic Service Award is the most prestigious award that a squadron or district may achieve. The Award recognizes visibility by the public of the BoatU.S. and United States Power Squadrons® mission through local community activities. It is presented under the joint sponsorship of the BoatU.S. Foundation and United States Power Squadrons® through the National Membership Committee.

Ted Sensenbrenner, Development Director for the BoatU.S.® Foundation, said “The environmental work done by the volunteers of the Cape Fear Sail & Power Squadron earned them the top recognition by BoatU.S. Their contributions in cleaning up local waterways, discarding and recycling clean-up waste, and partnering with an organization to turn certain plastic products into diesel fuel piqued the judge’s interest. This was truly a unique and over-the-top effort by the Cape Fear Sail & Power Squadron, and we are proud to recognize this awesome group with the BoatU.S. Civic Service Award.”

This award was in Wilmington’s [StarNews](#) on 22 March 2020
